Hearing

ANATOMY AND PHYSIOLOGY

The Acoustic Reflex and Temporary Threshold Shift: Temporal Characteristics, R. S. Karlovich, H. A. Osier, H. N. Gutnick, R. G. Ivey, K. Wolf, S. Schwimmer, M. L. Strennen, and J. Gerber, September, 565-573.
A Comparison of Three Methods for Predicting Hearing Loss from Acoustic Reflex Thresholds, Robert H. Margolis and Cydney M. Fox, June, 241-253.
Effects of Stimulus Frequency and Intensity on the Middle Components of the Averaged Auditory Electroencephalic Response, Aaron R. Thornton, Maurice I. Mendel, and Charles V. Anderson, March. 81-94.
Middle Components of the AER to Tone-Pips in Normal-Hearing and Hearing-Impaired Subjects, William H. McFarland, Michael C. Vivion, and Robert Goldstein, December, 781-798.

AUDIOLOGY

The Acoustic Reflex and Temporary Threshold Shift: Temporal Characteristics, R. S. Karlovich, H. A. Osier, H. N. Gutnick, R. G. Ivey, K. Wolf, S. Schwimmer, M. L. Strennen, and J. Gerber, September. 565-573.
Auditory Reaction Times for Functional and Nonfunctional Hearing Loss, Thomas J. Wood, Edward L. Goshorn, and Robert W. Peters, March, 177-191.
Calibration Force Levels for Bone Conduction Vibrators, Bradley L. Billings and Margaret Winter, December, 653-660.
Comment on Comfortable Loudness Levels for Pure Tones and Speech, (Letter to the Editor) Ira M. Ventry, December, 813.
A Comparison of Four Hearing Aid Measurement Systems, Thomas H. Townsend and Daniel M. Schwartz, December, 718-730.
A Comparison of Three Methods for Predicting Hearing Loss from Acoustic Reflex Thresholds, Robert H. Margolis and Cydney M. Fox, June, 241-253.
Development of the California Consonant Test, Elmer Owens and Earl D. Schubert, September, 463-474.
Effects of Training on the Visual Recognition of Consonants, Brian E. Walden, Robert A. Prosek, Allen A. Montgomery, Charlene K. Scherr, and Carla J. Jones, March, 130-145.
Interactions Among Tympanometric Variables, Robert H. Margolis and Gerald R. Popelka, September, 447-462.
Methods for Measuring the Temporal Characteristics and Filter Response of Electroacoustic Impedance Instruments, (Research Note) Robert H. Margolis and Samuel Gilman, June, 409-414.
Middle Components of the AER to Tone-Pips in Normal-Hearing and Hearing-Impaired Subjects, William H. McFarland, Michael C. Vivion, and Robert Goldstein, December, 781-798.
Observer Bias as a Factor in Neonatal Hearing Screening, George T. Mencher, Barbara McCulloch, A. J. Derbyshire, and Rich Dethlefs, March, 27-34.
Reply to Ventry's Letter, (Letter to the Editor) Donald D. Dirks and Candace Kamm, December, 814-815.
Sound Pressure in Insert Earphone Couplers and Real Ears, M. D. Burkhard and R. M. Sachs, December, 799-807.
Tympanometric Asymmetry, Robert H. Margolis and Phillip Smith, September, 437-446.
Using Circumaural Enclosures with Children, Carolyn H. Musket and Ross J. Roeser, June, 325-333.

Deafness

Analytic Study of the Tadoma Method: Background and Preliminary Results, Susan J. Norton, Martin C. Schultz, Charlotte M. Reed, Louis D. Braida, Nathaniel I. Durlach, William M. Rabinowitz, and Carol Chomsky, September, 574-595.

Auditory/Vibratory Perception of Syllable Structure in Words by Profoundly Hearing-Impaired Children, M. Lynn Zeiser and Norman P. Erber, September, 430-436.

Effect of Syntactic Order on Serial-Recall Performance of Hearing-Impaired and Normal-Hearing Subjects, J. Bruce Tomblin, September, 421-429.

Influence of Certain Language and Communication Environments in Early Childhood on the Development of Language in Deaf Individuals, Kenneth E. Brasel and Stephen P. Quigley, March, 95-107.

Observer Bias as a Factor in Neonatal Hearing Screening, George T. Mencher, Barbara McCulloch, A. J. Derbyshire, and Rich Dethlefs, March, 27-34.

Respiratory Kinematics in Profoundly Hearing-Impaired Speakers, Linda L. Forner and Thomas J. Hixon, June, 373-407.

Visual-Neural Correlate of Speechreading Ability in Normal-Hearing Adults, David C. Shepherd, Robin W. DeLavergne, Frank X. Frueh, and Carol Clobridge, December, 752-765.

Psychoacoustics

Calibration Force Levels for Bone Conduction Vibrators, Bradley L. Billings and Margaret Winter, December, 653-660.

Development of the California Consonant Test, Elmer Owens and Earl D. Schubert, September, 463-474.

Dichotic Ear Preference in Aphasia, John P. Johnson, Ronald K. Sommers, and William E. Weidner, March, 116-129.

Effects of Training on the Visual Recognition of Consonants, Brian E. Walden, Robert A. Prosek, Allen A. Montgomery, Charlene K. Scherr, and Carla J. Jones, March, 130-145.

Intelligibility of Time-Altered Speech in Relation to Chronological Aging, Dan F. Konkle, Daniel S. Beasley, and Fred H. Bess, March, 108-115.

Loudness Perception for Short-Duration Tones in Masking Noise, Alan M. Richards, December, 684-693.

Perception of Temporal Order of Vowels and Consonant-Vowel Syllables, Walter L. Cullinan, Elaine Erdos, Ronald Schaefer, and Mary Ellen Tekieli, December, 742-751.

Reliability of Performance for Dichotic Listening Using Two Response Modes, Kathleen Millay, Ross J. Roeser, and John J. Godfrey, September, 510-518.

Sound Pressure in Insert Earphone Couplers and Real Ears, M. D. Burkhard and R. M. Sachs, December, 799-807.

Using Circumaural Enclosures with Children, Carolyn H. Musket and Ross J. Roeser, June, 325-333.

Other

Analytic Study of the Tadoma Method: Background and Preliminary Results, Susan J. Norton, Martin C. Schultz, Charlotte M. Reed, Louis D. Braida, Nathaniel I. Durlach, William M. Rabinowitz, and Carol Chomsky, September, 574-595.

A Comparison of Four Hearing Aid Measurement Systems, Thomas H. Townsend and Daniel M. Schwartz, December, 718-730.

Criteria for Assessing Therapy Outcome in Speech Pathology and Audiology, (Tutorial) Franklin H. Silverman, March, 5-20.

Validity of the Peabody Picture Vocabulary Test as a Measure of Hearing Vocabulary in Mentally Retarded and Normal Children, Ann M. Williams, Colleen J. Marks, and Irv Bialer, June, 205-211.

Visual-Neural Correlate of Speechreading Ability in Normal-Hearing Adults, David C. Shepherd, Robin W. DeLavergne, Frank X. Frueh, and Carol Clobridge, December, 752-765.

Language

Aphasia

Dichotic Ear Preference in Aphasia, John P. Johnson, Ronald K. Sommers, and William E. Weidner, March, 116-129.
Effect of Auditory Prestimulation on Naming in Aphasia, Bonnie Louise Podraza and Frederic L. Darley, December, 669-683.
Language and Memory Disorders Following Closed Head Trauma, Michael Groher, June, 212-223.
Short-Term Memory Scan in Normal Individuals and Individuals with Aphasia, R. Lawrence Warren, Dee Jay Hubbard, and Albert W. Knox, September, 497-509.
Validity of the Sklar Aphasia Scale, Rudolf Cohen, Dorothea Engel, Stephanie Kelter, Gudula List, and Hans Strohner, March, 146-154.

Language Development

Approximations of Selected Standard English Sentences by Speakers of Black English, Nicholas Bountress, June, 254-262.
Comment on "A Reconceptualization and Revised Scoring Procedure for the ITPA", (Letter to the Editor) Edward Burns, June, 415-416.
Developmental Changes in Speech Discrimination in Infants, Rebecca E. Eilers, Wesley R. Wilson, and John M. Moore, December, 766-780.
Discrimination of Linguistic Stress in Early Infancy, David R. Spring and Philip S. Dale, June, 224-232.
Effect of Syntactic Order on Serial-Recall Performance of Hearing-Impaired and Normal-Hearing Subjects, J. Bruce Tomblin, September, 421-429.
Evaluation of Syntax in Three-Year-Old Spanish-Speaking Puerto Rican Children, Nicolas Linares-Orama and Lois Joan Sanders, June, 350-357.
Influence of Certain Language and Communication Environments in Early Childhood on the Development of Language in Deaf Individuals, Kenneth E. Brasel and Stephen P. Quigley, March, 95-107.
Mastery of Verb Tense Markers by Normal and Learning-Disabled Children, Mary Ross Moran and Margaret C. Byrne, September, 529-542.
Overt and Covert Aspects of Adult Speech Perception, Philip A. Morse, Lewis A. Leavitt, Cynthia L. Miller, and Rhonda C. Romero, March, 40-54.
Revision Behaviors in the Speech of Normal Children Developing Language, Tanya M. Gallagher, June, 303-318.
A Story Completion Approach as a Measure of Language Development in Children, Lynn S. Bliss, Doris V. Allen, and Kenneth W. Wrasse, June, 358-372.
Validity of the Peabody Picture Vocabulary Test as a Measure of Hearing Vocabulary in Mentally Retarded and Normal Children, Ann M. Williams, Colleen J. Marks, and Irv Bialer, June, 205-211.

Other

Comment on "A Reconceptualization and Revised Scoring Procedure for the ITPA," (Letter to the Editor) Edward Burns, June, 415-416.
Effects of Selected Linguistic Variables on Apraxia of Speech, Debra Hardison, Thomas P. Marquardt, and Harold A. Peterson, June, 334-343.
Evaluation of Syntax in Three-Year-Old Spanish-Speaking Puerto Rican Children, Nicolas Linares-Orama and Lois Joan Sanders, June, 350-357.

Speech

Anatomy and Physiology

Effects of Auditory Masking on Lip Movements During Speech, Michael McClean, December, 731-741.
Estimation of Lung Volume Change from Torso Hemicircumferences, (Research Note) R. J. Baken, December, 808-812.
Fundamental Frequency—Sound Pressure Level Profiles of Adult Male and Female Voices, Robert F. Coleman, Janet Henn Mabis, and Joanne Kidd Hinson, June, 197-204.
Measurement of Airflow in Speech, Martin Rothenberg, March, 155-176.
Motor Impairment During Inferior Alveolar Nerve Blockade, (Letter to the Editor) John W. Folkins and James H. Abbs, December, 816-817.
Recruitment and Discharge Patterns of Single Motor Units During Speech Production, Harvey M. Sussman, Peter F. MacNeilage, and Randall K. Powers, December, 613-630.
Respiratory Kinematics in Profoundly Hearing-Impaired Speakers, Linda L. Forner and Thomas J. Hixon, June, 373-407.
Short-Term Memory Factors in Oral Retention, Philip H. Marshall, Margaret Sharrow, and Ehud Yairi, June, 344-349.
Subjective Evaluation of Articulatory Effort, Martha Parnell and James D. Amerman, December, 644-652.

Articulation Disorders

Contextual-Coarticulatory Inconsistency of /r/ Misarticulation, Paul R. Hoffman, Gordon H. Schuckers, and David L. Ratusnik, December, 631-644.
Delayed Judgment Speech-Sound Discrimination and /r/ or /s/ Articulation Status and Improvement, Ralph L. Shelton, Anita F. Johnson, and William B. Arndt, December, 704-717.
Factor Analysis of Measures of Articulation, Language, Auditory Processing, Reading-Spelling, and Maxillofacial Structure, Anita F. Johnson, Ralph L. Shelton, William B. Arndt, and Montie L. Furr, June, 319-324.
Identification and Description of Homogeneous Subgroups within a Sample of Misarticulating Children, William B. Arndt, Ralph L. Shelton, Anita F. Johnson, and Montie L. Furr, June, 263-292.
Oral Sensory and Motor Behaviors of Children with /s/ or /r/ Misarticulations, James C. McNutt, December, 694-703.

Speech and Voice Science

An Acoustic-Perceptual Method for the Quantitative Evaluation of Hypernasality, Björn E. F. Lindblom, James F. Lubker, and Stefan Pauli, September, 485-496.
Developmental Changes in Speech Discrimination in Infants, Rebecca E. Eilers, Wesley R. Wilson, and John M. Moore, December, 766-780.
Effects of Auditory Masking on Lip Movements During Speech, Michael McClean, December, 731-741.
Estimation of Lung Volume Change from Torso Hemicircumferences, (Research Note) R. J. Baken, December, 808-812.
Fundamental Frequency—Sound Pressure Level Profiles of Adult Male and Female Voices, Robert F. Coleman, Janet Henn Mabis, and Joanne Kidd Hinson, June, 197-204.
Intelligibility of Time-Altered Speech in Relation to Chronological Aging, Dan F. Konkle, Daniel S. Beasley, and Fred H. Bess, March, 108-115.
Measurement of Airflow in Speech, Martin Rothenberg, March, 155-176.
Motor Impairment During Inferior Alveolar Nerve Blockade, (Letter to the Editor) John W. Folkins and James H. Abbs, December, 816-817.

Nonindependence of Feature Processing in Initial Consonants, Joanne L. Miller, September, 519-528.
Order Effect of Acoustic Segments of VC and CV Syllables on Stop and Vowel Identification, Ralph N. Ohde and Donald J. Sharf, September, 543-554.
Overt and Covert Aspects of Adult Speech Perception, Philip A. Morse, Lewis A. Leavitt, Cynthia L. Miller, and Rhonda C. Romero, March, 40-54.
Perception of Temporal Order of Vowels and Consonant-Vowel Syllables, Walter L. Cullinan, Elaine Erdos, Ronald Schaefer, and Mary Ellen Tekieli, December, 742-751.
Recruitment and Discharge Patterns of Single Motor Units During Speech Production, Harvey M. Sussman, Peter F. MacNeilage, and Randall K. Powers, December, 613-631.
Respiratory Kinematics in Profoundly Hearing-Impaired Speakers, Linda L. Forner and Thomas J. Hixon, June, 373-407.
Respiratory Tracking of Dichotically Presented Tonal Amplitudes, Harvey M. Sussman, September, 555-564.
Short-Term Memory Factors in Oral Retention, Philip H. Marshall, Margaret Sharrow, and Ehud Yairi, June, 344-349.
Subjective Evaluation of Articulatory Effort, Martha Parnell and James D. Amerman, December, 644-652.
Timing Control Accuracy in Normal Speakers and Stutterers, Margaret H. Cooper and George D. Allen, March, 55-71.

STUTTERING

Criteria for Stuttering, Marcel E. Wingate, September, 596-606.
Effect of Adjacency on the Distribution of New Stutterings in Two Successive Readings, Catherine Y. Y. Wong and Oliver Bloodstein, March, 35-39.
Effect of Vicarious Punishment on Stuttering Frequency, Richard Martin and Samuel Haroldson, March, 21-26.
Effects of Noise and Increased Vocal Intensity on Stuttering, Sharon F. Garber and Richard R. Martin, June, 233-240.
Influence of Reading Level Difficulty on the Disfluencies of Normal Children, Christine P. Cecconi, Stephen B. Hood, and Raymond K. Tucker, September, 475-484.
Laryngeal Behavior During Stuttering, Edward G. Conture, Gerald N. McCall, and David W. Brewer, December, 661-668.
Listener Judgments of Differences in Stutterers' Nonstuttered Speech during Chorus- and Nonchorus-Reading Conditions, Roger J. Ingham and Philippa J. Carroll, June, 293-302.
Timing Control Accuracy in Normal Speakers and Stutterers, Margaret H. Cooper and George D. Allen, March, 55-71.

OTHER

An Extension of a Familiar Index of Observer Agreement, Martin A. Young, March, 72-80.
Criteria for Assessing Therapy Outcome in Speech Pathology and Audiology, (Tutorial) Franklin H. Silverman, March, 5-20.
Effects of Selected Linguistic Variables on Apraxia of Speech, Debra Hardison, Thomas P. Marquardt, and Harold A. Peterson, June, 334-343.

TITLE INDEX

An Acoustic-Perceptual Method for the Quantitative Evaluation of Hypernasality, Björn E. F. Lindblom, James F. Lubker, and Stefan Pauli, September, 485-496.
The Acoustic Reflex and Temporary Threshold Shift: Temporal Characteristics, R. S. Karlovich, H. A. Osier, H. N. Gutnick, R. G. Ivey, K. Wolf, S. Schwimmer, M. L. Strennen, and J. Gerber, September, 565-573.
Analytic Study of the Tadoma Method: Background and Preliminary Results, Susan J. Norton, Martin C. Schultz, Charlotte M. Reed, Louis D. Braida, Nathaniel I. Durlach, William M. Rabinowitz, and Carol Chomsky, September, 574-595.

Approximations of Selected Standard English Sentences by Speakers of Black English, Nicholas Bountress, June, 254-262.
Auditory Reaction Times for Functional and Nonfunctional Hearing Loss, Thomas J. Wood, Edward L. Goshorn, and Robert W. Peters, March, 177-191.
Auditory/Vibratory Perception of Syllabic Structure in Words by Profoundly Hearing-Impaired Children, M. Lynn Zeiser and Norman P. Erber, September, 430-436.
Calibration Force Levels for Bone Conduction Vibrators, Bradley L. Billings and Margaret Winter, December, 653-660.
Comment of Comfortable Loudness Levels for Pure Tones and Speech, (Letter to the Editor) Ira M. Ventry, December, 813.
Comment on "A Reconceptualization and Revised Scoring Procedure for the ITPA," (Letter to the Editor) Edward Burns, June, 415-416.
A Comparison of Four Hearing Aid Measurement Systems, Thomas H. Townsend and Daniel M. Schwartz, December, 718-730.
A Comparison of Three Methods for Predicting Hearing Loss from Acoustic Reflex Thresholds, Robert H. Margolis and Cydney M. Fox, June, 241-253.
Contextual-Coarticulatory Inconsistency of /r/ Misarticulation, Paul R. Hoffman, Gordon H. Schuckers, and David L. Ratusnick, December, 631-643.
Criteria for Assessing Therapy Outcome in Speech Pathology and Audiology, (Tutorial) Franklin H. Silverman, March, 5-20.
Criteria for Stuttering, Marcel E. Wingate, September, 596-606.
Delayed Judgment Speech-Sound Discrimination and /r/ or /s/ Articulation Status and Improvement, Ralph L. Shelton, Anita F. Johnson, and William B. Arndt, December, 704-717.
Development of the California Consonant Test, Elmer Owens and Earl D. Schubert, September, 463-474.
Developmental Changes in Speech Discrimination in Infants, Rebecca E. Eilers, Wesley R. Wilson, and John M. Moore, December, 766-780.
Dichotic Ear Preference in Aphasia, John P. Johnson, Ronald K. Sommers, and William E. Weidner, March, 116-129.
Discrimination of Linguistic Stress in Early Infancy, David R. Spring and Philip S. Dale, June, 224-232.
Effect of Adjacency on the Distribution of New Stutterings in Two Successive Readings, Catharine Y. Y. Wong and Oliver Bloodstein, March, 35-39.
Effect of Auditory Prestimulation on Naming in Aphasia, Bonnie Louise Podraza and Frederic L. Darley, December, 669-683.
Effect of Syntactic Order on Serial-Recall Performance of Hearing-Impaired and Normal-Hearing Subjects, J. Bruce Tomblin, September, 421-429.
Effect of Vicarious Punishment on Stuttering Frequency, Richard Martin and Samuel Haroldson, March, 21-26.
Effects of Auditory Masking on Lip Movements During Speech, Michael McClean, December, 731-741.
Effects of Noise and Increased Vocal Intensity on Stuttering, Sharon F. Garber and Richard R. Martin, June, 233-240.
Effects of Stimulus Frequency and Intensity on the Middle Components of the Averaged Auditory Electroencephalic Response, Aaron R. Thornton, Maurice I. Mendel, and Charles V. Anderson, March, 81-94.
Effects of Training on the Visual Recognition of Consonants, Brian E. Walden, Robert A. Prosek, Allen A. Montgomery, Charlene K. Scherr, and Carla J. Jones, March, 130-145.
Effects of Selected Linguistic Variables on Apraxia of Speech, Debra Hardison, Thomas P. Marquardt, and Harold A. Peterson, June, 334-343.
Estimation of Lung Volume Change from Torso Hemicircumferences, (Research Note) R. J. Baken, December, 808-812.
Evaluation of Syntax in Three-Year-Old Spanish-Speaking Puerto Rican Children, Nicolas Linares-Orama and Lois Joan Sanders, June, 350-357.
An Extension of a Familiar Index of Observer Agreement, Martin A. Young, March, 72-80.
Factor Analysis of Measures of Articulation, Language, Auditory Processing, Reading-Spelling, and Maxillofacial Structure, Anita F. Johnson, Ralph L. Shelton, William B. Arndt, and Montie L. Furr, June, 319-324.

Fundamental Frequency–Sound Pressure Level Profiles of Adult Male and Female Voices, Robert F. Coleman, Janet Henn Mabis, and Joanne Kidd Hinson, June, 197-204.
Identification and Description of Homogeneous Subgroups within a Sample of Misarticulating Children, William B. Arndt, Ralph L. Shelton, Anita F. Johnson, and Montie L. Furr, June, 263-292.
Influence of Certain Language and Communication Environments in Early Childhood on the Development of Language in Deaf Individuals, Kenneth E. Brasel and Stephen P. Quigley, March, 95-107.
Influence of Reading Level Difficulty on the Disfluencies of Normal Children, Christine P. Cecconi, Stephen B. Hood, and Raymond K. Tucker, September, 475-484.
Intelligibility of Time-Altered Speech in Relation to Chronological Aging, Dan F. Konkle, Daniel S. Beasley, and Fred H. Bess, March, 108-115.
Interactions Among Tympanometric Variables, Robert H. Margolis and Gerald R. Popelka, September, 447-462.
Language and Memory Disorders Following Closed Head Trauma, Michael Groher, June, 212-223.
Laryngeal Behavior During Stuttering, Edward G. Conture, Gerald N. McCall, and David W. Brewer, December, 661-668.
Listener Judgment of Differences in Stutterers' Nonstuttered Speech during Chorus- and Nonchorus-Reading Conditions, Roger J. Ingham and Philippa J. Carroll, June, 293-302.
Loudness Perception for Short-Duration Tones in Masking Noise, Alan M. Richards, December, 684-693.
Mastery of Verb Tense Markers by Normal and Learning-Disabled Children, Mary Ross Moran and Margaret C. Byrne, September, 529-542.
Measurement of Airflow in Speech, Martin Rothenberg, March, 155-176.
Methods for Measuring the Temporal Characteristics and Filter Response of Electroacoustic Impedance Instruments, (Research Note) Robert H. Margolis and Samuel Gilman, June, 409-414.
Middle Components of the AER to Tone-Pips in Normal-Hearing and Hearing-Impaired Subjects, William H. McFarland, Michael C. Vivion, and Robert Goldstein, December, 781-798.
Motor Impairment During Inferior Alveolar Nerve Blockade, (Letter to the Editor) John W. Folkins and James H. Abbs, December, 816-817.
Nonindependence of Feature Processing in Initial Consonants, Joanne L. Miller, September, 519-528.
Observer Bias as a Factor in Neonatal Hearing Screening, George T. Mencher, Barbara McCulloch, A. J. Derbyshire, and Rich Dethlefs, March, 27-34.
Oral Sensory and Motor Behaviors of Children with /s/ or /r/ Misarticulations, James C. McNutt, December, 694-703.
Order Effect of Acoustic Segments of VC and CV Syllables on Stop and Vowel Identification, Ralph N. Ohde and Donald J. Sharf, September, 543-554.
Overt and Covert Aspects of Adult Speech Perception, Philip A. Morse, Lewis A. Leavitt, Cynthia L. Miller, and Rhonda C. Romero, March, 40-54.
Perception of Temporal Order of Vowels and Consonant-Vowel Syllables, Walter L. Cullinan, Elaine Erdos, Ronald Schaefer, and Mary Ellen Tekieli, December, 742-751.
Recruitment and Discharge Patterns of Single Motor Units During Speech Production, Harvey M. Sussman, Peter F. MacNeilage, and Randall K. Powers, December, 613-630.
Reliability of Performance for Dichotic Listening Using Two Response Modes, Kathleen Millay, Ross J. Roeser, and John J. Godfrey, September, 510-518.
Reply to Ventry's Letter, (Letter to the Editor) Donald D. Dirks and Candace Kamm, December, 814-815.
Respiratory Kinematics in Profoundly Hearing-Impaired Speakers, Linda L. Forner and Thomas J. Hixon, June, 373-407.
Respiratory Tracking of Dichotically Presented Tonal Amplitudes, Harvey M. Sussman, September, 555-564.
Revision Behaviors in the Speech of Normal Children Developing Language, Tanya M. Gallagher, June, 303-318.
Short-Term Memory Factors in Oral Retention, Philip H. Marshall, Margaret Sharrow, and Ehud Yairi, June, 344-349.

Short-Term Memory Scan in Normal Individuals and Individuals with Aphasia, R. Lawrence Warren, Dee Jay Hubbard, and Albert W. Knox, September, 497-509.

Sound Pressure in Insert Earphone Couplers and Real Ears, M. D. Burkhard and R. M. Sachs, December, 799-807.

A Story Completion Approach as a Measure of Language Development in Children, Lynn S. Bliss, Doris V. Allen, and Kenneth W. Wrasse, June, 358-372.

Subjective Evaluation of Articulatory Effort, Martha Parnell and James D. Amerman, December, 644-652.

Timing Control Accuracy in Normal Speakers and Stutterers, Margaret H. Cooper and George D. Allen, March, 55-71.

Tympanometric Asymmetry, Robert H. Margolis and Phillip Smith, September, 437-446.

Using Circumaural Enclosures with Children, Carolyn H. Musket and Ross J. Roeser, June, 325-333.

Validity of the Peabody Picture Vocabulary Test as a Measure of Hearing Vocabulary in Mentally Retarded and Normal Children, Ann M. Williams, Colleen J. Marks, and Irv Bialer, June, 205-211.

Validity of the Sklar Aphasia Scale, Rudolf Cohen, Dorothea Engel, Stephanie Kelter, Gudula List, and Hans Strohner, March, 146-154.

Visual-Neural Correlate of Speechreading Ability in Normal-Hearing Adults, David C. Shepherd, Robin W. DeLavergne, Frank X. Frueh, and Carol Clobridge, December, 752-765.
